Subject: RE: Project Willow

Hi 38(1)(b)

I can confirm that unless someone higher up than me instructs me otherwise, that is my proposed approach and the one that I am progressing. I am speaking to CMS tomorrow to formally instruct them to commence the Principles Assessment for Project Willow and therefore no ask of SE in respect of the funding associated with Project Willow at this time.

Best wishes

Hi 38(1)(b)

I know you are not short of things to do but

Before asking our guys to stand down, can I just confirm that you are now going down the route of making a direct grant award from Scottish Government to the company to enable the funding of Project Willow. This will require a Principal's Assessment which you will progress with colleagues in CMS and there is therefore no ask of SE in respect of the funding associated with Willow.

Many thanks.

Dear 38(1)(b)

We have now concluded the scoring and selection phase of Project Willow and set out below a summary of the process, our assessment and a recommendation on next steps.

33(1)(b)

[Redacted]

Next Steps

Ms McAllan has been clear on her support for Project Willow both privately and in GFIB and we now request that this is formalised following which we engage EY and rapidly start work

[Redacted]

[Redacted] I confirm the same request will be made this evening of UKG (via the Scotland Office).

We note an intention to appoint Adrian Gillespie and Kersti Berg to the Advisory Board, however we kindly request SG consider a Ministerial appointment for this governing board recognising the significance of the project and the need for “champions” to drive successful outcomes.

Finally, we look forward to working with you on this nationally important project.

Regards

38(1)(b)

All

Thanks for your time today and apologies I had to head off early.

I have attached an updated submission for your consideration.

Would it please be possible if you could review the Governance structure internally and confirm at the Advisory Board level who will represent SE?

I have also sent on the submission to 38(1)(b) and hope to get it to 38(1)(b) this week so we have agreement from our side. I will keep you posted on how this goes.

Kind regards

Afternoon both

Below, as discussed, please find SE's first thoughts on Project Willow. (This is a combined, cross business view).

We'll be happy to provide more structured, formal feedback in due course.

Cheers,

[REDACTED] 38(1)(b)

Project Willow

- A very welcome, comprehensive, transformational project proposal SE would like to be involved in.
- [REDACTED] 33(1)(b)
- Also, opportunity to streamline the cross-agency, 'Team Scotland' approach to working with these companies.
- The scale of funding required could be challenging, however this is the size and scale of project Team Scotland needs. It will move the dial on emissions and economic output.

- [REDACTED] 33(1)(b)

[REDACTED]

- [REDACTED] 33(1)(b)
[REDACTED]
- [REDACTED]
[REDACTED]
- Willow needs to be positioned as a whole cluster project with whole cluster impacts (largely a perception, comms exercise)
- Team Scotland would like Willow to properly explore the [REDACTED] 33(1)(b) [REDACTED] (China is the Global leader in this, it makes up 1/3 the mass of Lithium-Ion batteries, Scotland has significant energy storage interests)
- [REDACTED] 33(1)(b) [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
- More visible support for the Falkirk Growth Deal (or at very least, the companies stop talking the deal down)
- Consideration and articulation of the innovation challenges / innovation challenge statements where Team Scotland can play a role.
- More consideration to local skills planning, local content to ensure any transition is Just. Team Scotland has a role to play here if industry articulates the requirement.
- [REDACTED] 33(1)(b) [REDACTED]
[REDACTED]
[REDACTED]
- Recognition, on conclusion of Willow, industry stakeholders will be informed to make strategic decisions regarding the future of Grangemouth – both positive and negative.
[REDACTED] 33(1)(b) [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
- Project will require SG teams to engage, and trouble shoot, regarding the art-of-the-possible policy levers. [REDACTED] 33(1)(b) [REDACTED]
[REDACTED]
- A great opportunity to connect policy areas (and perhaps declutter) with a transformational project capable of delivering major policy outcomes at a Scotland/UK level.

Hi [REDACTED] 38(1)(b)

Sorry I've not been able to get back to you sooner. However, I can now confirm that, in respect of your grant Offer dated 31 October 2022, as amended on 2 August 2023, I can confirm that a payment of £428,177 has been approved, representing the second and Final Instalments of grant. [REDACTED] 33(1)(b)

Funds should be with you in the next 5 working days, although please note that this may take slightly longer.

Please note that someone from our finance team may contact you to confirm the bank details – this is a standard part of our process and is carried out for audit purposes.

I draw your attention to the terms and conditions of your grant offer. It is important that you remain aware of the circumstances in which we may need to seek repayment of part or all of the grant paid to date.

Please don't hesitate to contact me if you have any questions.

Many thanks

Subject: RE: Ineos Chemicals Grangemouth [redacted] 33(1)(b)
 [redacted] 38(1)(b)

Thanks for your email and patience whilst I responded. In relation to your questions:

Claim Form and the Accountant's Report

The first claim was made for costs to end January 2023; however after subsequent email exchanges the first payment made by SE was based on the costs incurred to the end of March 2023 (refer to attached email) and as per the updated claim schedule. We received payment of £62,243.00 in August 2023 [redacted] 33(1)(b); therefore we have assumed that the next claim period should start from 1st April and the claim and accountant's report were prepared on this basis (noting that the Accountant's Report does also consider the total costs incurred to the end of the Project).

You're entirely correct – sorry about that!

The project was complete by 31st October 2023 – all activities were completed and invoiced by this date. I think that at the time we initiated the paperwork in December, we used the end of November 2023 to be sure that all payments had cleared from our bank account. [redacted] 30(c) at BDO has subsequently confirmed that all costs are before 31st October 2023.

That's great, thanks. [redacted] 38(1)(b) updated report confirms this.

The claims are therefore:

Claim	From	To	[redacted] 33(1)(b)	[redacted]	Claim	Comments
1	12-07-22	31-3-23	[redacted] 33(1)(b)	[redacted]	£62,243.25	£62,243 Paid August 2023

2	1-4-23	30-11-23	33(1)(b)		£428,177.56	This Claim
---	--------	----------	----------	--	-------------	------------

- Please can you confirm if you are happy to accept the Claim Form dated 1st April 2023 to 30th November 2023? **No need for an updated version**
- Please can you confirm if you are happy for the Accountant’s Report to be amended to run from the Project Start Date to 30th November 2023? **Updated version received and accepted.**

We can adjust the date ranges if required.

Completion Report – with apologies. This was prepared, but somehow does not seem to have been included with the final communication to yourself. Please find attached a redacted version of the end of Appraise Decision Support Package – apologies for the format, but it has been a struggle to get a version that the file size is small enough to send by email.

- Unfortunately we’re not able to accept this redacted version as it does not include key details to show that the project has been completed. Given this, please can you send me an unredacted version? Please be assured that Scottish Enterprises handles all commercially sensitive data carefully and we have a robust data policy.
- Alternatively a detailed technical summary containing narrative and key information would likely be acceptable, although our technical team may need to come back with further questions.

Sanctions Check – the latest updates that I have on the two points are:

- [Redacted] 33(1)(b)
- [Redacted] 33(1)(b)

I trust that this will allow you to progress with the claim, but please let me know if we need to amend any of the information already submitted.

Regards,

38(1)(b)

[REDACTED] 38(1)(b)

Thanks for your email and patience whilst I responded. In relation to your questions:

Claim Form and the Accountant's Report

The first claim was made for costs to end January 2023; however after subsequent email exchanges the first payment made by SE was based on the costs incurred to the end of March 2023 (refer to attached email) and as per the updated claim schedule. We received payment of £62,243.00 in August 2023 (33(1)(b)); therefore we have assumed that the next claim period should start from 1st April and the claim and accountant’s report were prepared on this basis (noting that the Accountant’s Report does also consider the total costs incurred to the end of the Project).

The project was complete by 31st October 2023 – all activities were completed and invoiced by this date. I think that at the time we initiated the paperwork in December, we used the end of November 2023 to be sure that all payments had cleared from our bank account. (b) at BDO has subsequently confirmed that all costs are before 31st October 2023.

The claims are therefore:

Claim	From	To	(b)	(b)	Claim	Comments
1	12-07-22	31-3-23	(b)	(b)	£62,243.25	£62,243 Paid August 2023
2	1-4-23	30-11-23	(b)	(b)	£428,177.56	This Claim

- Please can you confirm if you are happy to accept the Claim Form dated 1st April 2023 to 30th November 2023?
- Please can you confirm if you are happy for the Accountant’s Report to be amended to run from the Project Start Date to 30th November 2023?

We can adjust the date ranges if required.

Completion Report – with apologies. This was prepared, but somehow does not seem to have been included with the final communication to yourself. Please find attached a redacted version of the end of Appraise Decision Support Package – apologies for the format, but it has been a struggle to get a version that the file size is small enough to send by email.

Hi [Redacted]

Thanks for submitting the claim and sorry I've not been able to get back to you sooner.

Claim form dates:

[Redacted]

Accountant's report:

30(c)

33(1)(b)

33(1)(b)

33(1)(b)

Project report:

Can you send me a copy of the Project Close-out report please.

Sanctions check:

Both the UK Government and the Scottish Government are operating a programme of sanctions against Russian and Belarussian interests because of the war in Ukraine. In addition, the Scottish Government in March 2022 wrote an 'open letter to businesses' asking them to review operations for links and connections to Russia and to sever them.

Scottish Enterprise has also been tasked with applying the same principle to those companies and individuals we work with.

Before SE is allowed to release any grant funding, therefore, it has to be satisfied that neither the company being supported nor any parent company has any trading, financial or other commercial links, other than in areas specifically excluded from sanctions with Russia or Belarus. Therefore, SE is required to be satisfied that the company does not have the following:

- Trading links with Russia/Belarus through either imports from, or exports to, these countries. If there are any what is their nature and the approx. value?
- Any subsidiary companies, plants or premises in Russia/Belarus that are still operating. This extends to sales offices, distribution facilities or production plant or equipment and if the answer to any of these is yes we need to understand the nature of what they do?
- Any investments in Russia/Belarus of whatever sort. If they do what is the nature of these investments i.e. what are they supporting/funding and roughly how much are they are worth?
- If applicable, what plans are there to exit any commercial links etc with these two countries, especially in light of the most recent, and ongoing tightening of, sanctions generally by the UK and other European governments?

In particular, you told me the following back in August as part of the first claim:

- [REDACTED] 33(1)(b)
[REDACTED]
[REDACTED]

- [REDACTED] 33(1)(b)
[REDACTED]
[REDACTED]

[REDACTED] 33(1)(b)

Let me know if you've got any questions on any of the above.

Many thanks

Subject: RE: Information required [REDACTED] 33(1)(b)

[REDACTED] 38(1)(b)

Please see below, which is on our INEOS website available via this link: [Anti Slavery Act \(ineos.com\)](#)

ANTI SLAVERY ACT

Modern Slavery Transparency Statement

Modern slavery is a crime and a gross violation of fundamental human rights. INEOS has a zero-tolerance approach to modern slavery and we are fully committed to preventing slavery and human trafficking in our corporate activities. We are also committed to ensuring there is transparency in our own businesses and in our approach to tackling modern slavery throughout our supply chains, consistent with our disclosure obligations under the UK Modern Slavery Act 2015 and equivalent laws in other countries.

Our business

INEOS is a global manufacturer of petrochemicals, speciality chemicals and oil products. It comprises 36 businesses each with a major chemical company heritage. Its production network

spans 194 sites in 29 countries throughout the world. INEOS is a young company. It has grown to become a leading chemical company with sales today of around \$60 billion.

Our businesses:

- INEOS Acetyls
- INEOS Aromatics
- INEOS Nitriles UK Limited
- INEOS Sales (UK) Limited
- Grangemouth CHP Limited
- INEOS Energy Trading Limited
- INEOS UK SNS Limited
- INEOS FPS Limited
- INEOS E&P (UK) Limited
- INOVYN Chlorvinyls Limited
- INOVYN Enterprises Limited
- INOVYN Europe Limited
- INEOS Compounds Aycliffe Limited
- INEOS Solvents Ethanol Limited
- INEOS Enterprises Group Limited
- INEOS Enterprises Holding Limited
- INEOS Commercial Services UK Limited
- INEOS Chemicals Grangemouth Limited
- INEOS Limited

Our supply chains

The majority of the INEOS's activity is carried out in the EU and the USA which we consider to be low risk in relation to Modern Slavery. Nevertheless, INEOS recognises its responsibility and has alerted relevant staff to the risks of slavery, however small, in their businesses and across the wider supply chain. Those staff are expected and encouraged to report concerns to management, who will then act upon them.

Our policies on slavery and human trafficking

We are committed to ensuring that there is no modern slavery or human trafficking in our supply chains or in any part of our business. Our Anti-slavery Policy reflects our commitment to acting ethically and with integrity in all our business relationships and to implementing and enforcing

effective systems and controls to ensure slavery and human trafficking is not taking place anywhere in our supply chains.

Among the other policies that we consider give us strength in avoiding modern slavery or human trafficking under the Act in our businesses are:

Anti-Bribery & Corruption policy <http://www.ineos.com/information/legal/>

Risk assessment and due diligence processes for slavery and human trafficking

As part of our initiative to identify and mitigate risk, over the past year we have been putting in place systems to:

- include anti-slavery checks in the due diligence process for on-boarding new suppliers
- monitor potential risk areas in our supply chains
- conduct selective supplier audits
- include due diligence regarding anti-slavery in M&A activity
- protect whistle blowers

Training

To maintain awareness and ensure a high level of understanding of the risks of modern slavery and human trafficking across our businesses we have trained relevant members of staff and our Anti-slavery Policy is available to all staff.

This statement is made pursuant to section 54(1) of the UK Modern Slavery Act 2015 and constitutes INEOS' slavery and human trafficking statement for the financial year ending 31 December 2023 including for all of its in-scope subsidiaries as listed.

Signed on behalf of the INEOS Group of companies

38(1)(b)

Also, refer to our annual sustainability report: [INEOS SustainabilityReport 2023 240430.pdf](#)

Subject: Information required 33(1)(b)

Importance: High

Hello 38(1)(b)

33(1)(b)

I've completed most of this but, to get it finished, I need some information directly from INEOS.

Please note that I am not asking you to generate new information.....moreover to supply me with existing information that will most likely appear in INEOS' corporate literature such as annual statements, policy summaries and CSR documents.

The information required is as follows:

1. Due diligence on Supply Chains for Modern Slavery Purpose

As I say, please just send me anything you have from annual statement, CSR statements, corporate supplier principles or the like.

For awareness, the Corporate Institute of Procurement and Supply (CIPS) states that *“organisations are not expected to guarantee their supply chains are slavery free.*

However, the statement must lay out the steps your organisation has taken to deal with modern slavery risks in the supply chain.”

2. Governance and Internal Control Systems and Downstream Delivery

The best way to highlight what I'm looking for is just to copy and paste directly from the template I'm completing. To that end, I furnish you with the following 2 statements.

“Governance and Internal Control systems - does the organisation have policies or mechanisms in place that address its human rights obligations, e.g. through ethics, equalities or corporate social responsibility committees or programmes? Have steps been taken to improve its record and/or provide redress for any prior human rights issues?”

AND

“Downstream Delivery - is there evidence that the organisation carries out its own due diligence checking on its partners, joint ventures, subsidiaries etc.? How does it monitor, evaluate and control the risk of existing projects? Is there a record of any human rights concerns of any subsidiary or partner organisation?”

We are now urgently trying to get [REDACTED] 33(1)(b) [REDACTED] as early as possible during next week (w/c 8th July). Hopefully, this is relatively non-onerous, and you can draw on existing internal info.

Thanks.

Hi 38(1)(b)

I'm just finalising an email regards 33(1)(b) 38(1)(b) and additional info and will send on to 38(1)(b) at Ineos asap and copy you.

Regards 33(1)(b)

Grateful if you could discuss internally and revert.

Also, could we set up a brief call to discuss 33(1)(b)

just so you are fully up to speed on what happens next? If you could share some suitable dates/times in coming week that would help (although Wed/Thurs this week a bit challenging)

Hi 38(1)(b)

Have you been to the INEOS HQ before ?

As you drive past the Grangemouth Stadium the INEOS HQ is on the RHS. 1 Inchyra Road.

Visitor parking is first left after you turn right into the main car park coming from Junction 5 from the M9.

If you come to the main front door press the buzzer and the reception staff will allow you entry.

I will meet you in reception at 0900.

cheers

Hi R 38(1)(b)

Thanks for your patience, trying to get confirmation from staff that have been on leave.

From our side confirmed:

38(1)(b) Scottish Enterprise.

38(1)(b) Scottish Enterprise.

I plan to get one more person along and will update you once secured.

Best regards,

38(1)(b)

38(1)(b)

Please can you confirm your availability and other attendees from Scottish Enterprise for the meeting scheduled for a week tomorrow Tuesday the 28th of May at our Grangemouth Office 0900-1100.

Attendees from INEOS :-

38(1)(b) – OPUK

38(1)(b)

38(1)(b) OPUK 38(1)(b)

I will then put a meeting request in the diary and book you in as visitor's.

cheers

38(1)(b)

Hi 38(1)(b)

Thanks ok let me check and get back to you.

Bank holidays pass me by too.

Best regards,

38(1)(b)

38(1)(b)

Thanks for coming back to me.

Tuesday the 28th of May 0900-1100 would best suit my Operations Director (38(1)(b)) – I believe Monday 27th is a bank holiday ! (Not at Grangemouth though!!)

The green hydrogen announcement was great news – also the SGN project to connect the Hydrogen pipeline in at Grangemouth starts next week.....

cheers

Hi [REDACTED] 38(1)(b)

Coming back to you regarding possible meeting dates.

My colleague and I are not able to attend this Friday at INEOS but we will look to attend the 27th- ideally in the morning, I recall this was the next suitable date?

Interesting to see the RWE announcement of the green hydrogen plant at your site.

Best regards,

[REDACTED] 38(1)(b)

Hi [redacted]

Thanks for this. I am free from meetings for a call between 8.30 and 11.00 if that helps.

Best regards,

[redacted]

Hi 38(1)(b)

Thanks for your offer of help at today's meeting.

38(1)(b) and I discussed possibilities after the call and we identified 33(1)(b) as a possible area of support. 33(1)(b)
38(1)(b). I have asked 38(1)(b) to discuss this with 38(1)(b) in the first instance.

Regards
